Vutipuur Comfortplast Midi 24-28 vutile / 64(P)x65(L)x46(K)cm

### Product Description

Suitable for hobbyists, you can use it conveniently at home or at your workplace. You can have the pleasure of receiving and eating fresh eggs everyday.

- The quail's housing has 24 quail capacities.
- World's first patented design.
- Enhanced door lock system.
- High fertilizer resistance from plastic, very long life, non-rusting.
- With the elliptical and flexible base design, the fertility rate is very high and the egg breakage rate is very low.
- High-capacity plastic feeder and 1 quail for 2 days on quail's head.
- Zero feed loss with feed grill.
- Plastic fertilizer pan.
- Filtered water tank, special black silicone hose to prevent algae.
- Nipple - automatic irrigation system to prevent wetting of the quail's narrowed bowl area.
- Adhesive-free, handcuffed irrigation installation.
- Great savings on shipping with completely demounted shipment.
- Easy and fun installation with cage mounting guide.
